Address: 45005, Toledo, Spain (Home)

About me:
Full stack developer with 5 years of experience in designing and developing software applications. Expertise in developing front-end and back-end software, developing and deploying applications on the cloud, and optimizing performance and scalability. Always ready for new challenges to leverage my experience and knowledge in the development and deployment of applications.

WORK EXPERIENCE

03/2022 – CURRENT Toledo, Spain
FULL-STACK DEVELOPER PLEXUS TECH

• Built and designed a medium sized app alone from scratch, following best practices with Agile principles, SOLID patterns and clean code architecture, increasing development productivity by 50% and decreasing production deployment times by 20%.

• Improved the look and feel of two legacy applications using Angular 11 and React 18 with excellent UI libraries like Angular Material, Chakra-UI and Tailwind CSS, making them highly responsive and easy to use.

• Developed resilient, safe backend APIs with Spring boot, using Spring JPA, Spring Security, OpenAPI docs and created 2 independent scheduled processes using quartz resulting in a fully automatic system, which is able to run independently with zero user input.

11/2018 – 03/2022 Madrid, Spain
DEVELOPER ATOS IT SOLUTIONS AND SERVICES

• Improved cost, time and quality of product by migrating existing application from a web application to a microservice architecture based on Spring boot 2, JPA, REST APIs and Spring security.

• Designed and developed beautiful, efficient and business oriented front-end solutions using Angular 8 and PrimeNg components, which resulted in a 20% increase in customer satisfaction.

• Tested performance and service availability using JMeter, Docker containers and Openshift, focusing on metrics, such as throughput,
response time, errors, availability and uptime

Business or Sector Public administration and defence; compulsory social security

11/2017 – 11/2018 Madrid, Spain
CODER CAS TRAINING S.L

• Development of several Ekip modules and applications, allowing users to experience an increase in the system fluency with built-in ProC
scripts.
• Evolved and maintained SOAP services using a clients modified Spring framework, resulting in a 50% improvement in API performance,
measured by a decrease in response times from 500ms to 250ms.

EDUCATION AND TRAINING

09/2013 – 06/2015 Parla, Spain
VOCATIONAL TRAINING IN MICROCOMPUTING SYSTEMS AND NETWORKING Enrique Tierno galván

Address Juan Carlos I, 1, Parla, Spain

05/2017 – 08/2017
CERTIFICATE IN VIDEOGAME DEVELOPMENT WITH UNITY 3D CFTIC

LANGUAGE SKILLS

Mother tongue(s):   **ESPAÑOL**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	B2	B1	B1	B2
FRENCH	A2	A2	A2	A2	A2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

DIGITAL SKILLS

Java │ Spring/Spring-Boot │ Jira │ Jenkins │ Docker │ Angular 11 │ Tailwind CSS │ Postman │ Microservices │ Agile (Scrum) │ RESTful api │ Git │ Amazon Webservices │ Minikube │ JavaScript │ Typescript

ADDITIONAL INFORMATION

DRIVING LICENCE

Driving Licence: B

HOBBIES AND INTERESTS

Game Development I love to develop casual games using Unity and C# in my free time. I've created several prototypes and learnt a lot
from them

Languages I love to learn new languages and communicate with other people as is a beautiful and unique way to grow both personally and professionally, plus, it lets you know a bit of every person you meet, that's really worth it.

PROJECTS

02/2023 – 02/2023
Portfoilio Created the first version of a portfolio using React 18 with typescript to complete a weekend coding challenge while learning a few new
technologies such as React and Tailwind CSS
